

Quick Test Guide — for our U.S. Partner

A 5-minute walkthrough of exactly what the experts you invite will experience.

What we'd love you to do

Sign up as an expert yourself, go through the steps below, and tell us if anything feels confusing or broken. This is the same flow your invited experts will use.

EXPERT SIGN-UP LINK

<https://getitdonework.com/signup?role=enabler>

1 Sign up as an expert (~3 min)

1. Open the link above. The form already has **"Enabler"** (expert) selected.
2. Enter your name, an email you can check, and a password (at least 8 characters, with a letter and a number).
3. Click **Sign up**. You'll see a "check your email" message.
4. Open the email from **Get It Done at Work** (subject "Confirm your email") and click **Confirm email**.
If it's not in your inbox, check Spam and click "Not spam" — this helps for everyone.
5. You're now signed in to your **Enabler dashboard** — everything is in English.

2 Complete your profile (~2 min)

6. Click **Edit profile**: add a photo, a short bio, your education, specialties, and your hourly rate. Click **Save**.
7. Click **Set availability**: turn on a few days and add time ranges (e.g., Mon 09:00–12:00) **in your own timezone**. Click **Save**.
This is important — startups can only book the times you set here.

3 What happens next

8. Your account starts as **"Pending approval"** — this is normal. Email us and our team approves you (usually the same day).
9. Once approved, you appear in the expert directory and Korean startups can request sessions with you. You'll get an email + dashboard notification for each request.

Please tell us (just reply with notes):

- ☐ Did the confirmation email arrive? (inbox or spam?)
- ☐ Was the whole experience in English and clear?

- ☐ Anything confusing, broken, or missing?
- ☐ How long did the whole thing take?

Note: The full booking + live video session (with background blur) needs both a startup and an expert account, so we'll run that test together — just let us know when you're ready.
